JOB TITLE

Full stack software engineer with experience building fully functional web applications. I have 6 years of experience in the education and wildlife conservation sectors. I am an avid writer, researcher and public speaker. I am results-oriented, passionate about the work that I do, and have strong interpersonal skills.

TECHNICAL SKILLS

Ruby, Rails, Javascript, React, SQL, PostgreSQL, JWT, AWS, HTML5, CSS3

TECHNICAL PROJECTS

Adventure Log - *Ruby on Rails, React.js, PostgreSQL, JWT, AWS*

[Demo](#) | [GitHub Frontend](#) | [GitHub Backend](#)

Gives users up-to-date wildlife conservation information on animals from around the world while allowing them to track their world wide encounters, as well as their friends'.

- Parsed data on 9700 different animals from the IUCN Red List API
- Integrated the Google Maps API to allow users to track their friends' and their own travels worldwide
- Enabled users to keep track of their wildlife encounters to show how rare and special wildlife sightings are becoming
- Implemented an AWS S3 bucket for storage of user's encounter photos

Dear Diary - *Ruby on Rails, React.js, PostgreSQL, JWT, AWS*

[Demo](#) | [GitHub Frontend](#) | [GitHub Backend](#)

Allows users to find, connect and share their experiences with others.

- Implemented a self-join on the User model to allow one user to interact with another through a follower/followee relationship
- Used an AWS S3 bucket for storage of user's post photos

Penguin Runner - *Ruby on Rails, Vanilla Javascript, PostgreSQL, HTML5 Canvas*

[Demo](#) | [GitHub Frontend](#) | [Github Backend](#)

Users have the option to dodge or shoot oncoming ice blocks while collecting coins to increment their high score.

- Implemented 'gravity' for more realistic game physics
- Increased game difficulty by increasing game-speed with continued play
- Offered various in-game and lifetime achievements so users can gauge their progress over time
- Applied HTML5 canvas to allow for more precise collision detection

EXPERIENCE

The Windward School

Middle School Science Teacher

White Plains, NY

September 2017 - June 2020

- Communicated effective learning strategies to students, age 10-14
- Provided 5 daily lessons to classes averaging 12 students in size

Nawamintharachinuthit Triamudomsuksanomklao School

English and Science Middle / High School Teacher

Bangkok, Thailand

May 2016 - April 2017

- Lived and taught in Bangkok, Thailand for 12 months to students age 12-18
- Created approximately 1000 varying lesson plans to be taught to classes that averaged a size of 30 students
- Classes progressed Monday-Friday, and occasionally Saturday

EDUCATION

Flatiron School

Full Stack Web Development, Ruby on Rails and JavaScript program

New York, NY

July 2020 - October 2020

Elon University

Bachelor of Science, Biology

Elon, NC

May 2014
